To Whom It May Concern;

I would like to recommend LECO Supply to you as a vendor that you will be able to trust and work with over a wide scope of projects. You will find that not only is the supplies and part inventory comprehensive but you will also find service that is prompt and friendly. When it comes to billing invoicing is straightforward and easy to reconcile.

Lucky Eagle Casino & Hotel has used LECO Supply as our supplier of choice for several years. With a facility that is open nearly 24 hours a day and a combination of casino floor, restaurants, and hotel we have a wide range of cleaning and supply needs. We place orders weekly due to demand and storage space and greatly appreciate the regular delivery system that LECO has in place to get supplies to us. In case of emergencies or order errors there's always a truck available to bring supplies even on weekends. We have some unique needs because of gaming regulations and LECO Supply accommodates those needs, for instance making sure that they stock enough clear plastic can liners for us.

I highly recommend LECO Supply and their team to you as a premier supplier of cleaning supplies, paper goods, repair and replacement parts for commercial cleaning machines, repair services, and any other commercial facility needs you could have. If you need a part that they do not carry they will source it for you. Pricing is very competitive and their great service puts them on top as the company you want to work with. Please feel free to contact me if you have any questions-

Sincerely,

Jenny Howe
